### Summary

Experienced mobile application developer leveraging my experience and skills, with over two years of experience developing and delivering commercially viable and high-quality mobile apps for fast-paced companies.

I have built solutions in industries ranging from e-commerce, and Fin-tech. I co-lead the Tradr(Telioce) mobile team, to

build a scalable e-commerce mobile application and also worked with a team of developers to implement the send money feature in Maze(fin-tech) product by Petra Technologies inc.

### Skills & Proficiencies

- Programming languages: Dart, Ionic & Javascript.
- Frameworks: Flutter & Ionic.
- Database: Firebase (Cloud Firestore & RealTime database),SQLite.
- State Management: Riverpod & Provider.
- CI/CD: Github Actions.
- Testing: Unit, Widget and Integration Test.
- Tools: Android Studio, VSCode, Git, Github, GitLab, Figma, Flutter Flow.
- Soft Skills: Communication ,Time management, Team work, Problem solving.
- Concepts: Clean Architecture, Test-Driven Development(TDD), Design patterns, Object Oriented
- Others: Firebase Cloud Messaging(Push notifications & in-app messaging), Web Sockets, Google Maps.

### Work Experience

**Nigerian Youth Service Corps**  
**Nigerian Army 2 Division Odogbo Barracks**  
*09/2022 to 10/2023*

- Collaborated with the Signal Unit to provide the Division complex with Internet network via Switches and Routers.
- I also maintained Network security appliance and the network storage.
- Developed a website for the General Officer Commanding GOC during a skill acquisition program.

**Mobile Application Developer**  
**Telioce • Lagos, Lagos**  
*09/2021 - 07/2022*

- Built and managed an e-commerce solution on Tradr mobile application for ios and android using the Flutter
- framework with a team of 3 flutter developers.
- Achieved simplicity in e-commerce by covering over 95% of features that allows business owners and vendors to
- create multiple stores and custom domains.
- Implemented over 50% unit test coverage.
- Managed states using the provider package.

**Mobile Application Developer**  
**Shelf . Riyadh, Riyadh Province**  
*03/2021 to 09/2021*

- Refactored and re-architected the mobile code base of the shelf client App and Captain mobile application to ensure seamless user experience.
- Responsible for converting UI/UX mockups and designs into high quality and functional flutter codes while working with product managers to define rich mobile experience for users.
